

Lascaux Studio Bronze^{Original}

Lascaux Studio Bronze Original is a range of brilliant bronze colours made from pure, non-oxidizing metallic bronze for use in design, decoration and architecture. This exclusive colour range consists of 8 tones.

Properties

- genuine metal alloys
- lightfast and non-oxidizing
- very good coating flexibility
- gloss level: semi-gloss and uniform
- maximum coverage
- Optimal adhesion: to practically any clean surface
- water-resistant when dry
- usage: extremely concentrated and high-yielding
- shelf life: two years

Usage

- design, decoration and architecture
- ideal for the creation of frames

Applications

Lascaux Studio Bronze Original can be applied with all painting tools either directly from the bottle or diluted with water.

Priming:

According to the absorption level and texture desired, we offer corresponding products for both rigid and flexible base coats (Lascaux Primer and Modelling Pastes). Lascaux Studio Bronze Original should only be applied to non-alkaline bases.

Mixing:

Lascaux Studio Bronze Original can be intermixed, however it is important to note that the gold tones (990, 991, 992, 993, 994, 996), as well as the silver tones (995 and 997), can only be mixed among themselves. Otherwise their stability is compromised. For this same reason Lascaux Studio Bronze Original should not be mixed with any other Lascaux colours or mediums.

Varnishing:

A protective coating with Lascaux Transparent Varnish is highly recommended for work in outdoor settings. Use caution when using Gold tones, Britannia silver and copper for outdoor applications.

A protective covering with Lascaux Transparent Varnish 1 (diluted with water 4:1) protects Studio Bronze Original against attrition, humidity and oxidation. Do not apply Transparent Varnish 1 under humid or cool conditions, as the varnish can take too long to dry. As a result, the gold-bronzes, copper and Britannia silver are liable to turn greenish in colour.

Composition

Lascaux Studio Bronze Original is comprised of selected pure acrylics and lightfast, stabilised metal alloys.

Delivery form

85 ml, 250 ml and 500 ml
3 litre and 5 litre buckets
