

# Lascaux Decora

**Lascaux Decora is a ready-to-use tempera paint distinguished by its intensity and covering capacity. As an economical alternative to the highly concentrated Lascaux Gouache, the Decora programme is suited for use in art education, just as well as in the overall sectors of decoration and schooling. This colour programme consists of 18 balanced hues.**

## Properties

- lightfast
- dries to a velvety-matt, water soluble finish
- barely lighter in colour when dry
- commanding radiance and covering capacity
- adheres well to diverse bases

## Usage

- in schools and the field of design and décor
- With diverse painting techniques
- in art education - encompassing all age brackets and areas of study

## Applications

Lascaux Decora can be applied to all absorbent materials (paper, cardboard, canvas, wood or plaster as well as earthenware and fabric). This ready-to-use colour line can be diluted with water and applied effortlessly. It is uniformly concealing while at the same time translucent in every sense. Moreover, multi-layers of Decora colours can be over painted without the previous dry layer mixing with the newly applied paint.

## Priming:

Lascaux Gesso is recommended as a primer.

## Mixing:

All colour hues can be inter-mixed with one another.

## Varnishing:

A coat of Lascaux UV Protect protects finished works against ultraviolet rays and renders them waterproof.

## Composition

Lascaux Decora is composed of pure, light-fast pigments and an acrylic-modified binder in a natural base.

## Delivery form

Bottles of 500 ml. Cans of 3 l.
